

Greensburg Board Gaming Project

Samples of work using HTML5, CSS3,
Jquery, Bootstrap

Main Page part 1: the Page Slider part 1

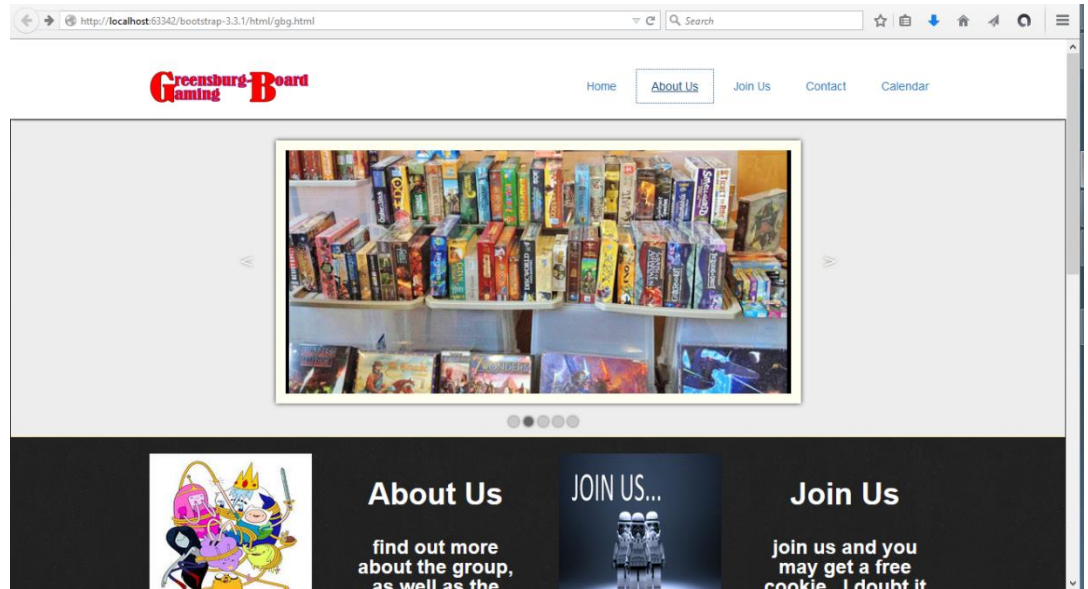

For the next 2 slides, I will cover the effects of the Image Slider(images with the gray background).

You'll note on this slide, the first image is selected. If you click on any of the other circles however,

Main Page part 1: the Page Slider part 2

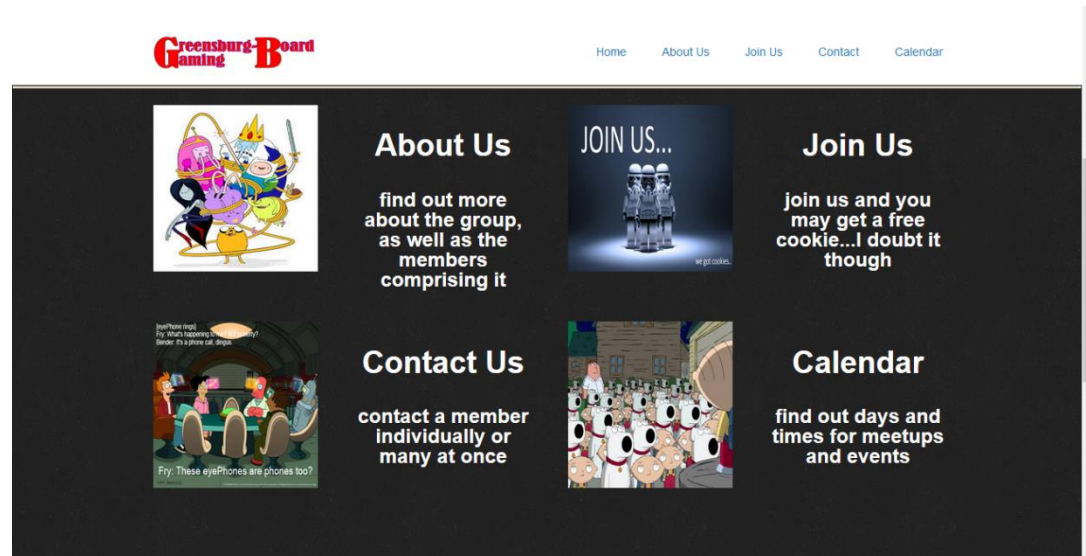

The picture successfully changes,
adding sleek design to this website.

Main Page part 2: the Movable Titlebar

If you look closely at the previous 2 slides, the main content of the web page was not entirely exposed; while on this slide it is...and that is the only difference.

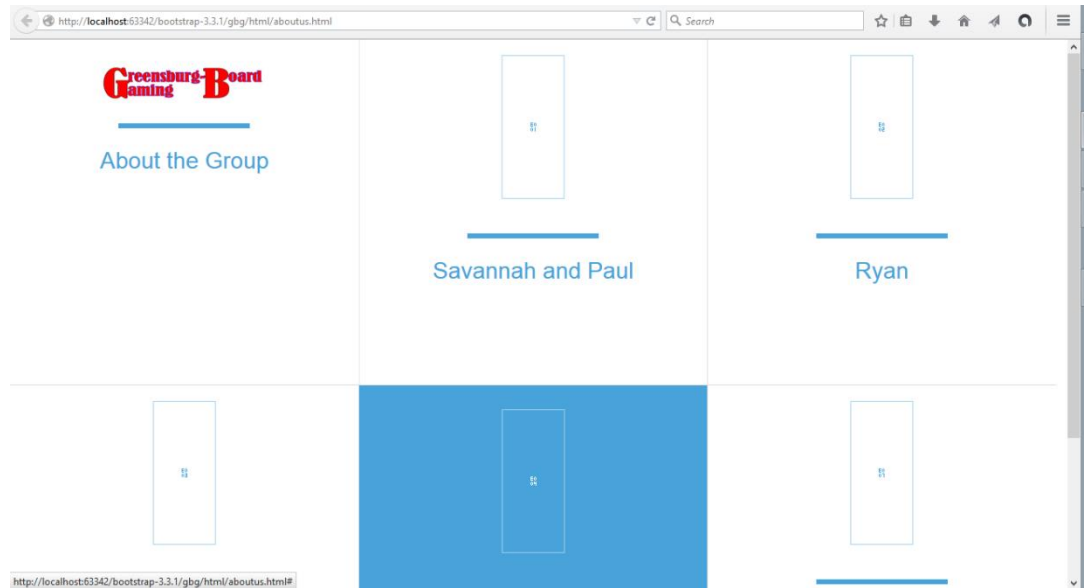

The titlebar moves in concert with what the user does on the webpage.

About Us Page: the WebKit Transformation part 1

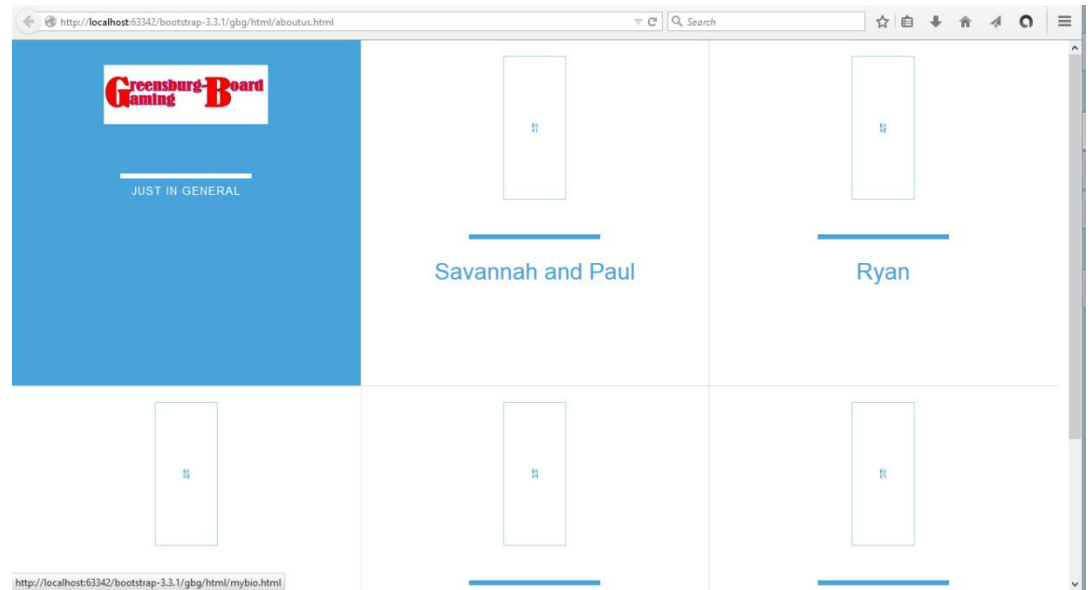

For the next 2 slides, please focus on the “About the Group” box located in the top left part of the page

Right now, the box’s animation is not in effect because the cursor isn’t hovering over it...however...

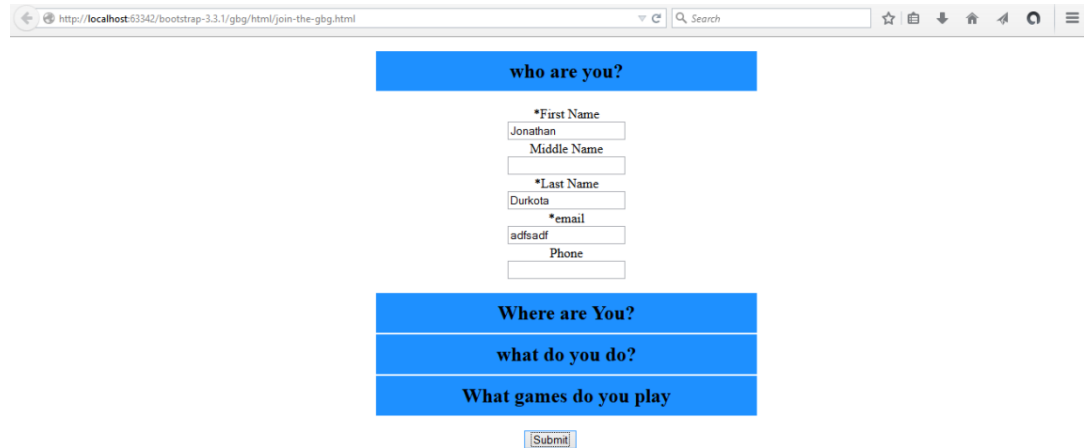

About Us Page: the WebKit Transformation part 2

When the user does hover over the area, the background turns blue and the content of the box shifts down due to the webkit transform code on the Y axis(the content would move laterally if the transform code were X instead of Y).

Join Us Page: Inputting the Fields part 1

Pretty generic input fields for a “join us” page.

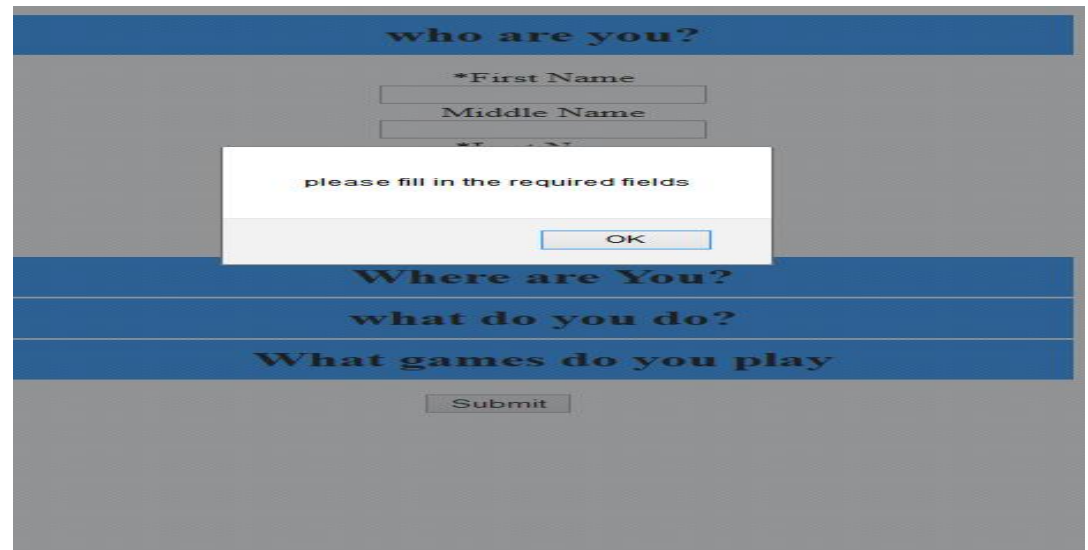

The screenshot shows a web browser window with the address bar displaying `http://localhost:63342/bootstrap-3.3.1/gbg/html/join-the-gbg.html`. The page content is a form with the following sections:

- who are you?**
 - *First Name:
 - Middle Name:
 - *Last Name:
 - *email:
 - Phone:
- Where are You?**
- what do you do?**
- What games do you play**
-

Join Us Page: Inputting the Fields part 2

Note that if the user doesn't input the fields that have an asterisk next to it, the user won't be able to submit their data.

The screenshot shows a web form titled "Join Us" with a blue header and a grey body. The form is divided into sections by blue headers: "who are you?", "Where are You?", "what do you do?", and "What games do you play". The "who are you?" section contains three input fields: "*First Name", "Middle Name", and "Last Name". The "Last Name" field has an asterisk next to its label. A white modal box with a blue border is centered over the form, displaying the message "please fill in the required fields" in red text. Below the message is an "OK" button. The "Where are You?" section contains a "Where" dropdown menu. The "what do you do?" section contains a "What do you do?" dropdown menu. The "What games do you play" section contains a "What games do you play" dropdown menu. At the bottom of the form is a "Submit" button.

who are you?

*First Name

Middle Name

Last Name

please fill in the required fields

OK

Where are You?

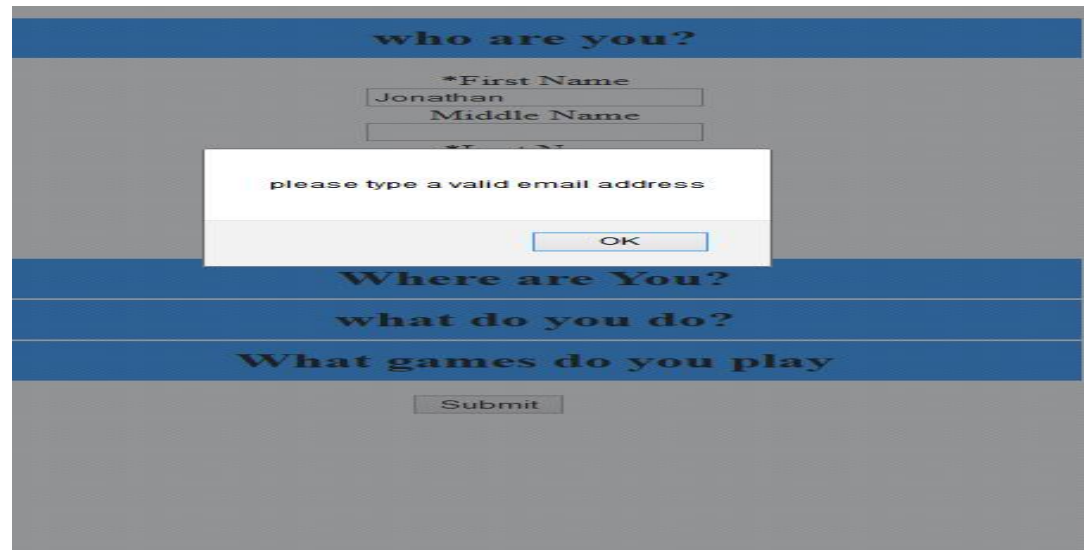

what do you do?

What games do you play

Submit

Join Us Page: Inputting the Fields part 3

Note that if the user inputs a value that does not include a '@', an alert will popup telling the user to type a valid email address, adding functionality to the page.

The screenshot shows a web form titled "Join Us" with a blue header and a grey body. The form is divided into sections by blue horizontal bars. The first section, "who are you?", contains three input fields: "*First Name" (with "Jonathan" entered), "Middle Name", and "Last Name". A white alert box is overlaid on the form, displaying the message "please type a valid email address" and an "OK" button. Below the alert box, the form continues with three more sections: "Where are You?", "what do you do?", and "What games do you play", each followed by a text input field. At the bottom of the form is a "Submit" button.
